INTRODUCTION

Seagull Maritime regard our individual client and oil major approvals and our ability to support these providers as of the utmost importance.

This Annex is dedicated to the requirement of Shell, an Oil Major, who has very specific personnel requirements for deployment of PCASP on their vessels.

It should be read in conjunction with the PCASP Recruitment and Screening Procedure (SM/INT/PRO/008).

SCOPE

The recruitment and screening of prospective PCASP operating as armed security teams on board Shell Approved Vessels.

RESPONSIBILITIES

Departments, staff and personnel have designated specific responsibilities as stated within the Procedure.

OUTSOURCED MANNING AGENCIES

Seagull Maritime will utilize 3rd party manpower providers, with known and referenced Shell experience, for the provision of candidates.

PCASP Recruitment and Screening Procedure – Shell

CANDIDATE REQUIREMENTS

Shell has developed and identified, with consideration to the relevant maritime and industry specific requirements, minimum mandatory documentation and certification for candidates.

Note: These are mandatory requirements and cannot be replaced or substituted by alternatives under the standard procedure.

The Group Compliance Director is responsible for the monitoring and ongoing review of Shell requirements and is responsible for ensuring recruitment procedures meet these standards.

The minimum requirements are:

Induction Certificate

The candidate must undergo Seagull Maritime company induction and familiarization training ahead of first deployment and refresher training when required.

Candidate CV

The CV must have no significant gaps, and such gaps should be explained. CVs should be in English and presented appropriately.

Military Service – Minimum 6 Years NATO Member State

Candidates must have completed at least six years of military service in a NATO member state, with former NATO military experience being the primary requirement.

Military infantry training and service experience are preferred, but other backgrounds will also be considered.

No dishonourably discharged personnel.

Military Service Testimonials

A written reference regarding their military service and conduct must be provided.

Excellent Physical Condition

Operatives must be able to demonstrate good health and fitness via medical documentation.

Level 2/3 First Aid Course

Identified in our standard procedure as a national or internationally recognized medical trauma qualification, the FPOS-I is the preferred qualification for Shell approved operatives.

Firearms Competency Course (FCC)

Candidates must be qualified in weapons systems (type, caliber) to be used by Seagull Maritime on the task. The certificate must detail the weapons trained and objectives achieved.

PCASP Recruitment and Screening Procedure – Shell

MSO Training Certificate

From an ISO 28007 accredited training organization.

STCW Basic Safety Training

As per our standard requirements, training must be completed with refresher training, certificates should be signed by the issuing authority.

Medical Fitness

Minimum ENG1 or equivalent.

Valid Inoculations for the Transit Region

Inclusive of yellow fever. Operations should be consulted on the potential transit region as required.

Mental Health Assurance Declaration

Psychometric tests recommended within the last 12 months.

Criminal Background Disclosure Check

All Operatives recruited or deployed are required to provide a criminal background disclosure. Must be clean and in date (max 12 months). Foreign CRB checks must be translated into English.

Passport Photograph Page

As per our minimum requirements, passport should be valid for travel for next 12 months.

Annual Drug & Alcohol Test

In accordance with Drug and Alcohol Testing Procedure.

English Language Proficiency

Non-native speakers must pass a recognized English language test and undergo a remote language assessment by a MARSEC Assessor approved by Seagull Maritime.

Human Resources & Training Staff are NOT to be reliant on the manpower provider being familiar with these requirements and must confirm them independently.

PRE-APPROVAL AND SUBMISSION

It is important to note that Shell use a pre-approval process for the approval of PCASP. All staff are to be aware of the following:

An armed transit requires pre-approval for all Team Members.

All personal information submitted to Shell must be password protected.

When submitting candidate details, collate required documentation into a single PDF per individual and send to STASCOMAR.

PCASP Recruitment and Screening Procedure – Shell

Inform Shell MARSEC three days before team embarkation for approval.

Records must be maintained for a minimum of three years and made available upon request.

The pre-approved list is reviewed annually.

If the tasking ETA means that available personnel will not be approved by Shell inside the approval window, Operations are to advise the GCD immediately.

Any issues caused by vessel ETA and pre-approval should be escalated to the Group Compliance Director.

Personnel File Creation

When creating the personnel file on 1Clearview, candidates should be marked with the "SHELL" credential.

Any candidate rejected by Shell for approval is to have this credential removed and clearly noted that they are not suitable for Shell tasks.

EQUAL OPPORTUNITIES

Due to the specific nature of the role and its requirements, there are some restrictions on eligibility for the role however Seagull Maritime are committed to the principles of equal opportunity in employment.

HUMAN RIGHTS

Personnel deploying as PCASP for Shell are to be granted the same rights as permanent staff or personnel under the company Human Rights Policy.

Seagull Maritime is committed to the Voluntary Principles on Security and Human Rights (VPSHR) and the International Code of Conduct for Private Security Service Providers (ICoC). All recruitment and screening practices are conducted in accordance with these frameworks, with particular regard to Shell's own VPSHR commitments.

REVIEW

This procedure shall be reviewed at the frequency defined in the Document Register (SM/INT/REG/001), or earlier if a significant change occurs that affects Shell PCASP recruitment and screening requirements.
